

Product Datasheet

Mixed Buff Pitched Walling

Sourced from Cumbrian Stone Ltd

Mixed Buff Pitched Walling – 65/140/215mm Heights

Stone Types Included

Cumbrian Stone's mixed buff cottage walling is made using a mix of several red sandstones from different quarries, and the make up of each batch can vary depending on the types of stone going through our production.

Generally, our buff mix can include the following natural stones:

Longridge Sandstone
Scotch Buff Sandstone
Fletcher Bank Sandstone

Standard Sizes

Cumbrian Stone's mixed buff pitched walling is produced at a nominal 100mm bed depth (+/-10mm) and is supplied in random lengths between 200 and 500mm, at heights of 65mm, 140mm and 215mm for coursing with 10mm joints.

Please note that printed colours may vary from printer to printer therefore the images contained within this datasheet are for reference purposes only. We would always recommend obtaining a physical sample for colour matching purposes. Large display panels of all of our materials available to view at our Penrith showroom, and we are happy to supply a sample of any of our products on request and at the point of order.

The variations shown are indicative of the features that can be found within this material/product. It is not possible to guarantee that any of the features shown will be present in any given stone, nor is it possible to guarantee the exclusion of any of these features. More information on the variations and range of inclusions commonly found within this product can be found at www.cumbrianstone.co.uk
